

Fastfloor-IT

Question

Can you give a warehouse, storage, production or Retail Unit Floor a new lease of life in 'A Matter of Days'?

Answer

With **Fastfloor-IT** from CG Flooring Systems Ltd., you can!

Fastfloor-IT is an extremely tough and durable* cementitious pump-applied floor screed - minimum 5mm thick, that takes foot traffic within 4 hours and wheeled traffic within 24 hours!

Fastfloor-IT is designed specially for rapid application in areas and situations where down time is at a premium and environmental matters are important. Up to 1000sq. metres can be laid in a day!

Fastfloor-IT is odourless, solvent-free, taint-free and is environmentally friendly.

* Abrasion resistance achieves 'AR1' Class under BS8204-2:1999 - Heavy Duty

Fastfloor-IT

5 Stage Programme

Stage 1 *Prep-IT* Shot-blast/Scabble the existing surface, then thoroughly clean the prepared surface.

Stage 2 *Prime-IT* Apply 2 coats of CGFS Screed Primer and allow to cure.

Stage 3

Stage 4 *Seal-IT* Mirror through all existing joints, then apply a coat of CGFS Screed Sealer.

Stage 5 *Cure-IT* Allow 24 hours for the Screed and Sealer to cure before hand-over to the client.
